**STEK Automotive** 

### **PPF Introduction**

### PPF Background

During the Vietnam War, the US army heavily used helicopters. (~12,000)

The US Department of Defense wanted to **protect the rotor blades** from pieces of wood blowing in the wind when helicopters landed in the jungle.

In response to this, **3M developed a film of elastic urethane material** that was later known as **PPF**.

### **Paint Protection films**

- Made out of thermoplastic polyurethane (TPU)
   that can protect surfaces from impact damages
- Are also made to be UV-resistant, anti-pollution, chemical-resistant, and non-yellowing.

#### Also known as:

- Clear Bra
- Clear Mask
- Clear Wrap

### **PROTECTION**

- Protects paint from paint chips, rocks, stones, scratches, and other damages
- To keep your peace of mind
- Better to protect than to repaint protect your investment

#### **STYLE**

- Change or improve the texture of the car without changing the color (from gloss to matte or vice versa)
- Make the car feel more luxurious
- Change the color of the car without touching the original paint

### PPF INDUSTRY

**Alternative Applications** 

### PPF STEK Paint Protection Films

#### **Clear PPFs**

- **DYNOshield**
- **DYNOmatt**
- **DYNOprism**

### **Colored PPFs**

- DYNOblack gloss
- DYNOblack matte
- **DYNOwhite**
- **DYNOred**
- DYNOpurple
- **DYNOgray**

#### **Patterned PPFs**

- DYNOdamascus
- DYNOdamascus black
- DYNOcarbon
- DYNOblack carbon-gloss
- DYNOblack carbon-matte

### **Light Protection Films**

- **DYNOsmoke**
- **DYNOshade**
- **DYNOfancy**
- **DYNOshadow**

### **PPF** STEK Clear PPFs

 Made to protect the car's paint by maintaining it's color while maintaining, improving or changing the surface finish.

#### **DYNOshield**

- Our flagship product.
- High gloss
- High hydrophobicity
- Great protection and scratch-resistance

#### **DYNOmatt**

- Provides a matte finish
- "kills the gloss" of the paint

#### **DYNOprism**

"Metal-flake" finish

Unparalleled top coated technology for those seeking the best performing film.

- Ultra Gloss Finish
- Super Hydrophobic
- Anti-Contamination
- Self-healing from minor scratching
- Extreme high-gloss
- High-Stretch
- 10 years warranty
